

MAY 4, 2:00 P.M. AT THE BFEC PICNIC PAVILION

Conserve, Protect, Enjoy Eastern Bluebirds

The melodious Eastern bluebirds are a success story. Conservation efforts have successfully rebounded their declining populations. Now YOU can help by building and installing a bluebird box on your property. Joel Hunt will demonstrate how to build a box and will explain proper placement of successful boxes, including perching areas, height and orientation, hole size, invasive species control, supplemental food and more. All materials will be provided. FREE, but reservation required. Call 740-427-5050 or email Bonnie Schutte at schutte1@kenyon.edu. *Meet at the BFEC picnic pavilion, or the Resource Center in the case of inclement weather.*
