

Specifications – Paving Construction

Mount Vernon City School Board of Education (BOE) is accepting bids for paving projects to be completed this summer. The project includes paving at three different locations and chip and seal at one location.

Bid should include:

1. Milling of area
2. Clean area
3. Tack coat and install asphalt
4. Roll finish
5. AC bands should be installed where new asphalt meets existing asphalt
6. Painting of all areas

Mill entire area, and entrances, catch basins, concrete walks and speed bumps as needed.

Reclaimed asphalt pavement (RAP) will not be permitted to be used in any surface courses.

Catch basins and inlets shall be level in accordance with the design and dimensions and to line and grade as originally set. In the case where adjustments must be made, they will be made prior to laying the asphalt.

All edges of the paving process will be sharp, clean and sealed by the contractor.

Paint all areas as they were originally. This should include: parking spaces, cross walks, stop bars, handicap parking, hash outs, dividing lines, arrows, fire lanes and no parking.

Areas to be paved are shown on the included photos. Area is open for inspection and measurement any time.

**Columbia Elementary
150 Columbus Road
Mount Vernon, Ohio 43050**

Both parking area and entrance loop in green should be bid as chip and seal pavement.

**Dan Emmett Elementary
108 Mansfield Ave.
Mount Vernon, Ohio 43050**

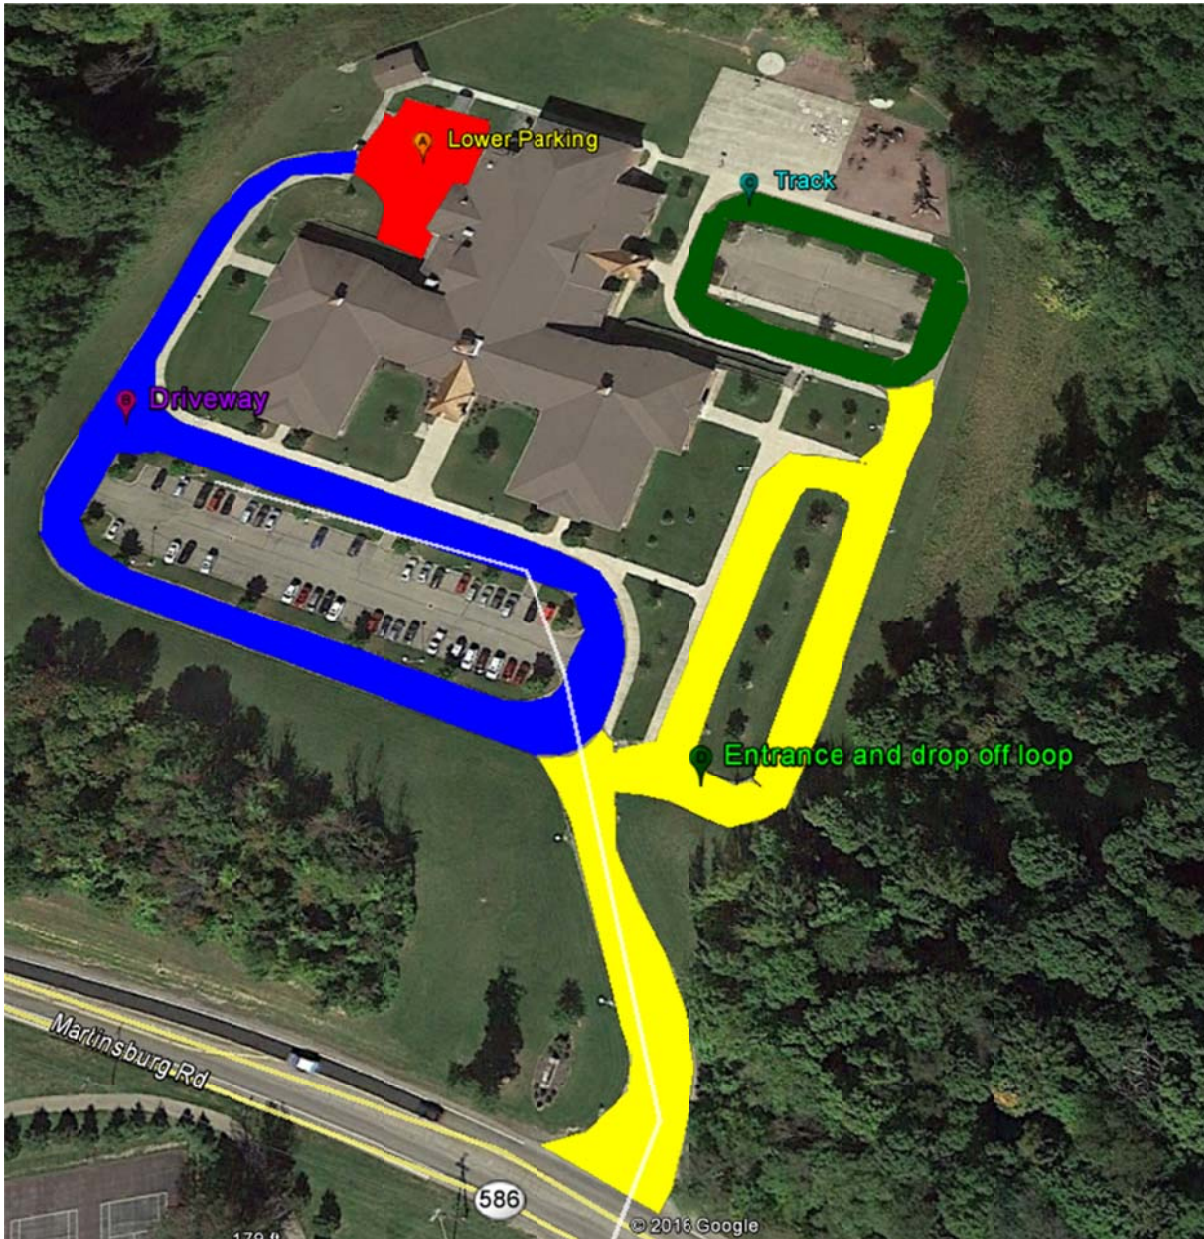

Both parking areas in yellow should be bid as asphalt pavement.

**Pleasant St. Elementary
305 E. Pleasant Street
Mount Vernon, Ohio 43050**

Parking area in purple should be bid as asphalt pavement.

**Twin Oak Elementary
8888 Martinsburg Road
Mount Vernon, Ohio 43050**

This project should be bid in four parts. All four areas should be bid as asphalt pavement.

- A. Lower parking lot – red
- B. Driveway Loop – blue
- C. Track – green
- D. Entrance and drop off loop – yellow

All four parts of this project may not be completed in 2017. Area to be completed is based on availability of funds.
